

Waste Stabilisation Ponds

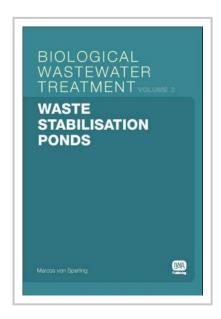

The ebook edition of this title is freely available as an Open Access text under a CC BY licence.

Waste Stabilisation Ponds is the third volume in the Biological Wastewater Treatment series. The major variants of pond systems are fully covered, namely:

- facultative ponds
- anaerobic ponds
- aerated lagoons
- maturation ponds

This highly acclaimed series comprises seven textbooks — available in print or as Open Access ebooks — which provide a state-of-the-art presentation of the science and technology of biological wastewater treatment. All volumes of the series have been thoroughly used by students, researchers and practitioners in developed and developing countries.

About the series:

The series is based on a highly acclaimed set of best selling textbooks. This international version is comprised by six textbooks giving a state-of-the-art presentation of the science and technology of biological wastewater treatment.

Titles in the Biological Wastewater Treatment series:

Volume 1: Wastewater Characteristics, Treatment and Disposal[1]

Volume 2: Basic Principles of Wastewater Treatment[2]

Volume 3: Waste Stabilisation Ponds

Volume 4: [3] Anaerobic Reactors[3]

Volume 5: Activated Sludge and Aerobic Biofilm Reactors [4]

Volume 6: Sludge Treatment and Disposal[5]

Volume 7: Treatment Wetlands[6]
