The book assembles contributions from renowned world leaders in activated sludge research, development, technology and application. The objective of the book is to summarise the knowledge of all aspects of the activated sludge process and to present and discuss anticipated future developments. The book comprises invited papers to be delivered at the conference "Activated Sludge...100 Years and Counting!" that is to be held in Essen, Germany, June 12th to 14th, 2014. *Activated Sludge - 100 Years and Counting* is of interest to researchers, engineers, designers, operations specialists, and governmental agencies from a wide range of disciplines associated with all aspects of the activated sludge process.
