

Water Recycling and Low-Carbon Development

Editor(s): Yun-Xiao Chong, Tian-Yin Huang, Feng-Min Li, Guang-Li Liu, Qian-Yuan Wu

This book deals with various problems and investigates different treatment technologies concerning water reuse. In response to the challenges of severe water shortages and the deterioration of water quality, the focus of cutting-edge technology and systems for water treatment and reuse is fast-growing worldwide. Progress is needed to provide high-quality reclaimed water, minimize the risks to the environment and human health, and support the use of non-conventional water resources.

In Focus – a book series that showcases the latest accomplishments in water research. Each book focuses on a specialist area with papers from top experts in the field. It aims to be a vehicle for in-depth understanding and inspire further conversations in the sector.
